# Introducing Digital Radiography at EQIS

## TESTING FACILITIES

NABL Accredited Facilities

- Gamma / Xray Radiography
- Ultrasonic Flaw Detection
- Magnetic Particle Testing
- Liquid Penetrant Testing (WW & Solvent)
- Ultrasonic Thickness Gauging
- Portable Hardness (Ultrasonic & Leeb)
- PMI Testing
- Tensile Testing
- Chemical Testing (Fe + Al Base)
- Impact Testing
- Hardness Testing
- Macro Examination
- Bend Test / Compression

Other Facilities

- Chemical Testing (Cu + Ni Base)
- NDT Training + Consultancy
- Ferritoscope
- Borescopy
- Infra Red Imaging
- Coating Thickness Gauge
- ASNT Level 3 & PCN Level 3

**TO KNOW MORE PLEASE CALL US**

**9884 716 500**

## COMPUTED RADIOGRAPHY

Introducing the state of the art computed radiography using flexible IP Plates bringing a whole new world of digitalization to your everyday NDT needs.

## ONLINE REPORTS

Our online reporting system with easy QR code retrieval and web based login allows you to download reports anywhere anytime.

## ISO 17025 (NABL) NDT + DT FACILITY

We combined destructive and nondestructive testing facilities under one roof so you don't have to visit two places. We are also accredited for site testing in NDT.
